Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 10 July 2003.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5, 7, and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Baudisch et al (US 4,482,522). Regarding claim 1, the device of Baudisch et al is capable of holding condiment containers as seen in Fig. 2. The intended use does not require any structure that is not in the reference. The bottom and the end walls have the circulation openings. The other two walls are partial walls as they have openings in them. Regarding claims 2 and 3, see fig. 2, the openings in the sidewalls and the bottom are both circular. Regarding claim 4, the all the walls are joined together as seen in Fig. 2. Regarding claim 5, see Fig. 2. Regarding claim 7, the openings in the top number 4 as seen in Fig. 2. Regarding claim 10, the device is used with a plurality of containers in the openings. The containers are capable of holding condiments.

Claims 1, 2, 4, 5, 6, 7, 8, and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Comer (US 2,459,921). Regarding the claims, see Figs. 1-4, where the structure is shown. The holes in the bottom are round. 17 and 19 are the openings in the sidewalls.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sochurek, Sr. (US 966,258) in view of Savage (US 531,067). Regarding claim 1, Sochurek teaches the claimed invention but does not teach the holder having a top with openings for receiving the bottles or containers. Savage teaches a similar structure with a top with openings for receiving the bottles. It would have been obvious to employ the top of Savage in the tray of Sochurek, Sr. to provide a stronger tray and to prevent contact between the bottles or containers. Regarding claim 6 and 7, see Savage where the number of openings is 8, which includes the claimed 4. Regarding claim 9, see Fig. 1 of Sochurek, Sr. where the peripheral lip is C.

Claims 11 and 12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sochurek, Sr. in view of Savage as applied to claim 9 above and further in view of Snell (US 4,947,991). The modified device of Sochurek, Sr. does not teach the tray in combination with squeeze bottles. Snell teaches a similar tray with squeeze bottles for condiments. It would have been obvious to employ the squeeze bottles Snell in the tray of Sochurek, Sr. to provide a beverage and food holder as taught by Snell.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Costantini et al (US 3,019,620), Ellis (US 3,254,502), and Broadwin (US 3,379,315) are all cited for there structure.
